Ground Cover:

Each vendor is responsible for providing ground cover for their booth AND prep area in order to prevent excessive amounts of grease, etc. on roadways/sidewalks. This includes your booth space and all areas outside your booth that you are using to prepare foods. One suggestion is plastic tarp from a local hardware store covered by rubber mats. Another suggestion is flame retardant indoor/outdoor carpeting. Please note: This will be checked prior to the start of the festival and you will not be allowed to vend until a cover is in place.

Health Permit:

The Juneteenth Festival is obtaining a blanket health permit. All vendors must execute the Health Department Fine Accountability Agreement. (See attached form "Health Department Fine Accountability Agreement").

Propane Permit:

Each vendor using propane or similar gases must have a propane permit and the propane must be kept outside of any tented area. Contact: Lt. Stepien at the Fire Prevention Bureau @ 315.473.3296 ext. 503.

Any vendor using open flame, propane, etc. shall provide:

1. Propane permit on site
2. A U.L. listed currently tagged and inspected ABC extinguisher – 2 ½ lbs.

Water:

Water is available where possible. We will have a connection to nearby fire hydrants and various adaptors off of that connection. City staff will open and close the hydrants. Please note that several vendors will need to utilize the same hook-up, so please be considerate.

Also note that these hook-ups should not be used to replace the hand-washing unit required by the Onondaga County Health Department.

Tents and Cookers:

Cooker may not be under the tent. Cookers must be in a remote tent if seating is allowed. Aisle ways and exits must be maintained, unobstructed if seating or tents are enclosed.

Combustibles are simply defined as anything that can burn. Examples include, but are not limited to, cardboard, paper, wood such as chips, pallets, canvas, or plastic or packing materials in any form. These materials may not be stored, stacked, piled, or left in booths, higher than 3' high, 2' deep, 6' long. Any material found to be excessive or creating a hazard must be removed. (Fire marshals will have final determination of hazard and removal).

Fire Prevention Bureau Requirements:

Every booth must have a fire extinguisher on hand. If you are cooking with propane, a permit is required (see forms). The fire department and the City of Syracuse require that the propane tank must be secured by tie or chain and kept outside of any tent.

lanterns, neither are allowed to be used as lighting sources.

Street Sizes:

Streets shall be maintained with a minimum width of 20' and a height of no less than 14' at all times. This is a City of Syracuse Fire Department regulation.

Accessibility to Buildings:

Accessibility spaces are maintained for access into buildings, parking lots, and to enhance the movement of people from the street for a fire or other emergency apparatus. In case of structure fires, booths may be removed or lowered for accessibility to structures in case of actual fires.

Trash:

At all times your area must be clean and neat, not only for health reasons but to represent an overall clean and wholesome image. Trash receptacles will be provided for your convenience.
